

BRANDING DIMENSIONS

Beverage Dispensing Backpacks

Product development at SELLact is always done with a major emphasis on versatile usage options. Therefore most of our mobile vending systems are equipped with a transparent PVC protection folia. Behind that folia you will be able to fit in your personal branding as a print-out on paper or thin print folia.

Listed below you will find measurements for all of our products - along with with the dimensions of the branding to be prepared. Alternatively SELLact will arrange the print-out for you. We kindly ask you to get in touch with the SELLact support team in order to learn more about possibilities and prices.

All print-outs ordered at SELLact will be done on a highly resistant 120g folia from polypropylene (semi gloss, tearproof & water-proof).

Print-outs with the mentioned dimensions fill out the branding area completely. Please allow for a space of 3 to 5 mm on each side in preparation of your print data - those parts might be covered by the edges of the pvc-folia.

GoTo Pack Classic

Branding back side (up to 2006)	H 42,5 x W 78,5 cm (height x width)
Branding back side (from 2007 on)	H 42,5 x W 66,0 cm
